> MBOX2 TECHNICAL CHARACTERISTICS

Dimensions: **432x365x290 mm**
Average weight: **15 Kg**
Power supply: **With 16mm² terminal box (5 poles) or with mobile (16/32A)**
Cable length: **2m**
Cable entry: **M32 or M25 break-through input and cable for power supply and M16 break-through for earthing cable**

- Switchboard for 16 DIN modules (2 rows of 8 modules) with tinted door and YALE key or triangular lock
- Possibility to install up to 4 interlocked OMNIA Series 16/32A socket with or without fuses or up to 6 flush mounting EUREKA Series 16/32A sockets
- Possibility to install the panel on turret or trestle
- Possibility to install the emergency push button
- Fuse-testing device housed in the switchboard compartment (only in the versions with fuses)
- Possibility to house three spare fuses
- Versions with light available on request.

> MBOX3 TECHNICAL CHARACTERISTICS

Dimensions: **465x380x520 mm**
Average weight: **15 Kg**
Power supply: **cable input through hole for M40 cable gland**
- M8 brass pin for earthing connection
- 16 mm² power supply terminal box (5 poles) for currents up to 32A and 35 mm² terminal box (5 poles) for currents up to 125A

- Possibility to equip the panel with a 63A or 125A fixed plug
- Switchboard for 39 DIN modules (3 rows of 13 modules) with tinted door and YALE key or triangular lock
- Possibility to install up to 6 interlocked OMNIA Series 16/32A sockets with or without fuses or up to 9 flush mounting EUREKA Series 16/32A sockets
- In the version without door it is possible to install up to 4 interlocked OMNIA Series 16/32A sockets and an interlocked OMNIA Series 63A socket
- Fuse-testing device inserted in the switchboard compartment
- Possibility to install the emergency push button or a disconnecter with functional control and emergency functions
- With light

> MBOX5 TECHNICAL CHARACTERISTICS

Dimensions: **775x400x670 mm**
Average weight: **27 Kg**
Power supply: **Power supply cable input through hole for M40 cable gland**
M8 brass pin for earthing connection
16 mm² power supply terminal box (5 poles) for currents up to 32A and 35 mm² terminal box (5 poles) for currents up to 125A

- Possibility of 70 mm² input/output terminal box (5 poles)
- Possibility to equip the panel with a 63A or 125A fixed plug
- Switchboard for 52 DIN modules (4 rows of 13 modules) with tinted door and YALE key or triangular lock
- Possibility to install up to 12 interlocked OMNIA Series sockets and 4 interlocked ADVANCE2 Series compact or large 16/32/63A sockets
- Output terminal box: it is possible to install the OMNIA Series containers n. 572.0321 and n. 572.0322 respectively for terminal box output with or without protection (6 DIN modules)
- Fuse-testing device inserted in the switchboard compartment
- Possibility to house five spare fuses
- Possibility to install the emergency push button or a disconnecter with functional control and emergency functions
- With light

> APPLICATION EXAMPLES

Night & day

Mbox Series by Scame ushers in a new era.

MBOX ushers in a new era with a panel that is now even more functional and complete. The special automatic device, an ultra-low consumption LED connected to a photosensor, guarantees illumination of the compartments containing the sockets, safety devices and controls when the outdoor lighting drops. This allows the identification and use of the product even under poor lighting conditions: ideal for work sites, MBOX is also perfect for campsites and parking lots. Extremely compact and completely safe, MBOX is innovatively designed and made of impact-resistant, flame-retardant engineering polymer in order to withstand any knocks and bumps as well as the atmospheric agents. In line with the highest safety standards, the MBOX Series includes a complete range of products and is also available in several customized versions with quick delivery.

MBOX Series: truly enlightening.

MBOX2

Version with 4 interlocked OMNIA Series sockets with fuses without emergency push button

Version with 6 EUREKA Series flush mounting industrial sockets and emergency push button

MBOX3

Version with 6 interlocked OMNIA Series sockets with fuses without emergency push button

Version with 9 EUREKA Series flush mounting industrial sockets and emergency push button

Version with 4 interlocked OMNIA Series 16/32A sockets with fuses and 1 interlocked OMNIA Series 64A socket and disconnect

MBOX5

Version with 12 interlocked OMNIA Series sockets with fuses without emergency push button

Version with 4 interlocked OMNIA Series sockets with fuses and 4 interlocked ADVANCE2 Series LARGE sockets and emergency push button

Version with 6 interlocked OMNIA Series sockets with fuses and 3 interlocked ADVANCE2 Series COMPACT and LARGE sockets with disconnect
